THE REPLY FILED <u>23 May 2007</u> FAILS TO PLACE THIS APP	LICATION IN CONDITION FOR AL	LOWANCE.				
The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Continuation of 11. does NOT place the application in condition for allowance because: the Examiner still considers that the use of a multilayer bushing is an obvious matter of design choice as discussed in the previous Office Action. Furthermore, the Examiner considers that the patents to Farnam et al. (US 3,941,640), Tucker et al. (US 5,292,270), Li et al. (US 5,480,706), Rafferty et al. (US 5,656,376), Boss et al. (US 6,465,110) and Halter (US 4,045,057) are examples of references that teach the well known use of multilayer bushings (or vibration dampers), which have different layer's configurations dependign upon the constraints of a particular application or design.
